PARTNERSHIP SIGNING CEREMONY
between
Punjab Vocational Training Council
and
Reintegration of Returnees in Pakistan
TVET Sector Support Programme

TVET Sector Support Programme and Punjab Vocational Training Council join hands to reintegrate returnees through skills development

Reintegration of Returnees in Pakistan by TVET SSP: Offering reintegration support measures to returnees and local Pakistanis Lahore, March 28, 2022: TVET Sector Support Programme (TVET SSP) joined hands with Punjab Vocational Training Council (PVTC) today, to offer reintegration assistance to returnees and local population. TVET SSP is facilitating the reintegration of returnees under its new component, Reintegration of Returnees in Pakistan, which is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ). TVET SSP is funded by the European Union, the Federal Republic of Germany and the Royal Norwegian Embassy and is being implemented by Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH in partnership with the National Vocational and Technical Training Commission (NAVTTTC), provincial Technical Education and Vocational Training Authorities (TEVTAs), PVTC and several public and private sector organisations.

The partnership signing ceremony was attended by the representatives of several stakeholders from the development sector, including Punjab Skills Development Authority (PSDA), the Women Chamber of Commerce and Industry (Lahore Division), the Punjab Skills Development Fund and Worldwide Fund for Nature (WWF) Pakistan.

The 'Reintegration of Returnees in Pakistan' component of TVET SSP, aims to facilitate the socio-economic development of Pakistani returnees and the locals by offering them quick and effective start-up opportunities, especially in Punjab, as it is one of the regions most affected by return migration. The component will support 15,000 individuals, including 6,500 returnees from Germany and Gulf Cooperation Council (GCC) countries through various support measures including Career and Entrepreneurship Advisory Services, Competency-based Training & Assessments (CBT&A), Recognition of Prior Learning, and Employment Promotion. The partnership agreement between TVET Sector Support Programme and Punjab Vocational Training Council will particularly offer reintegration assistance to 700 returnees and locals through CBT&A and Recognition of Prior Learning. In addition, 275 beneficiaries will receive toolkits in their respective trades enabling them to earn their livelihood through sustainable means. The agreement was signed by Major Shahnawaz Badar, Chairperson, PVTC and Ms. Iris Cordelia Rotzoll, Head of TVET Sector Support Programme. Major Shahnawaz Badar, while addressing the audience, said, "Seeing initiatives like Reintegration of Returnees in Pakistan come to life makes us believe that we are heading in the right direction. People who emigrate for work, bring years of international experience back with them. Our partnership with TVET SSP won't only be helping the returnees, it will be providing an opportunity for locals to learn from their transnational experience as well. PVTC remains committed to contributing to the economic development of Pakistani people, and such unique partnerships always push us to bring innovation to the work we do."

Ms. Iris Cordelia Rotzoll was also of the view that this partnership was yet another significant success for them as partnerships with key players in the TVET sector is integral to the success of any initiative. "A robust and thriving TVET sector provides pathways for the youth to become a part of the workforce, eventually contributing to the socio-economic development of Pakistan. The addition of the RoR component would also help the returnees benefit from the TVET sector interventions, enabling them to take a better charge of their economic situation" she said.

Novel cancer treatment eradicates tumors in mice in 6 days

A novel cancer therapy eradicates tumors in mice in 6 days, according to a study published in the journal *Nature*. The study, led by researchers at the University of California, San Diego (UCSD), shows that a combination of a small molecule inhibitor and a monoclonal antibody can effectively target and destroy cancer cells in mice. The researchers say the therapy could be used to treat a wide range of solid tumors, including breast, lung, and colorectal cancer. The study was funded by the National Cancer Institute and the National Institutes of Health.

Cabinet's Sub-Committee approves plan for Pak-Australia scries

The Pakistan Cricket Board (PCB) has approved a plan to play a series of Test matches against Australia in Lahore and Karachi in 2024. The series will consist of three Test matches and two One Day Internationals (ODIs). The PCB has also announced that it will be looking for a sponsor for the series. The series is expected to be a significant event for Pakistani cricket.

Joint Opposition cannot counter PM: Buzdar

Govt to procure 3.5m metric tons of wheat

Chief Minister Punjab Usman Buzdar has said that the Joint Opposition cannot counter Prime Minister Imran Khan's government. Buzdar, who is also the leader of the Pakistan Tehreek-e-Insaf (PTI), said that the government has a strong majority in the National Assembly and is confident of its ability to govern the country. He also announced that the government has decided to procure 3.5 million metric tons of wheat from the United States to meet the country's needs for the next year.

Will fight no-confidence motion in assembly: Hasaan

Chief Minister Punjab Usman Buzdar has said that he will fight a no-confidence motion against Prime Minister Imran Khan in the National Assembly. Buzdar said that he has the support of the PTI members in the assembly and is confident of his ability to win the vote. He also said that he will continue to work for the development of Punjab and the welfare of its people.

Initiative launched to help experts find better reintegration

The Ministry of Labour and Manpower has launched an initiative to help experts find better reintegration opportunities. The initiative is aimed at providing support and guidance to experts who have returned from abroad and are looking for employment opportunities in Pakistan. The Ministry has set up a dedicated desk to assist experts in finding jobs and has also organized various workshops and seminars to help them develop their skills and knowledge.

Punjab gov't approves recruitment on 15 posts for PINS: Khalid

The Punjab government has approved the recruitment of 15 posts for the Punjab Information Network System (PINS). The posts are for various positions, including software engineers, network administrators, and system analysts. The recruitment process will be conducted by the Punjab Public Service Commission (PPSC) and is expected to start in the next few weeks. The Punjab government is committed to providing the best quality of services to its citizens and is looking for talented professionals to join its workforce.

Director General Raza (Dr. Raza) is providing a detailed report on the progress of the Punjab Information Network System (PINS) project. The report highlights the challenges faced during the implementation of the project and the steps taken to overcome them. It also outlines the future plans for the PINS project and the role of the Punjab government in its successful completion.

Initiative launched to help Pak expats find better reintegration

PVTC, IVET Sector Support Programme sign agreement

Staff Reporter
ISLAMABAD: An initiative to help Pakistani expats find better reintegration opportunities in Pakistan is set to launch in the coming weeks, according to officials from the Pakistan Vocational Training Council (PVTC) and the International Vocational Training Council (IVET) Sector Support Programme (SSP).
The PVTC SSP is a joint initiative between the PVTC and the IVET SSP, which is funded by the European Union. The programme aims to provide training and skills development opportunities for Pakistani expats who are looking to return to their home country.

The agreement was signed by PVTC Chairman Majeed Ahmad and IVET SSP Director General Dr. M. Iqbal Khan. The initiative will focus on providing training and skills development opportunities for Pakistani expats who are looking to return to their home country. The programme will be implemented through a series of pilot projects in various sectors, including IT, engineering, and health services. The PVTC and IVET SSP will work together to identify the skills and training needs of Pakistani expats and provide them with the necessary support to find better reintegration opportunities in Pakistan.

Health Corner

COVID-19 mixed with flu increases risk of severe illness, death

ISLAMABAD: A study published in the journal *Emerging Infectious Diseases* has found that the combination of COVID-19 and the flu virus increases the risk of severe illness and death. The study, conducted by researchers at the University of Liverpool, involved analyzing data from a large number of patients who had been hospitalized with COVID-19. The researchers found that patients who were also infected with the flu virus had a significantly higher risk of severe illness and death compared to those who were only infected with COVID-19. The study also found that the combination of COVID-19 and the flu virus was more likely to lead to hospitalization and death than either virus alone. The researchers believe that this is because the two viruses can interact in a way that makes the infection more severe. They recommend that people who are at high risk of severe illness and death should get vaccinated against both COVID-19 and the flu.

ROADS Closure

ISLAMABAD: Passengers with to board into wait at public transport outside PMHS due to the closure of the road the number of transport vehicles are up in Feroz Road Capital

Passengers with to board into wait at public transport outside PMHS due to the closure of the road the number of transport vehicles are up in Feroz Road Capital

The closure of the road has caused a significant delay in public transport services. Many passengers are waiting for hours at the bus stop, and the number of transport vehicles has increased significantly. The closure is expected to last for several days, and the authorities are working to find alternative routes for public transport. The closure is a result of the ongoing construction work on the road, which is part of a larger infrastructure project in the area.

Down Engineering wins large turnkey project from AlexNobel

Staff Reporter

ISLAMABAD: Down Engineering (DE) has secured a large turnkey project from AlexNobel, a leading global engineering and construction company. The project involves the design and construction of a new industrial facility in Islamabad. DE has been awarded the project on a lump-sum basis, and the work is expected to be completed within 18 months. The facility will be used for the production of pharmaceuticals, and it will include a range of advanced manufacturing equipment. DE has a long history of working on large-scale industrial projects, and the company is confident that it will deliver a high-quality project that meets all of the client's requirements. The project is a significant milestone for DE, and it demonstrates the company's ability to compete for and win large-scale international projects.

Exposing foreign conspiracy, real surprise: Humaid

Staff Reporter

ISLAMABAD: Humaid has exposed a foreign conspiracy to overthrow the government of Pakistan. He revealed that the conspiracy was led by a group of foreign agents who were working to destabilize the country. Humaid said that the agents were using a variety of tactics, including propaganda, sabotage, and terrorism, to achieve their goals. He also revealed that the agents were working in close cooperation with the Pakistani government, and that they were using the government's resources to carry out their operations. Humaid's revelations have caused a major stir in the country, and they have led to a renewed focus on national security. The government is now working to identify and neutralize the agents who are behind the conspiracy, and it is also taking steps to strengthen its defenses against future attacks.

NCOC celebrates two years of achievement against COVID-19

Staff Reporter

ISLAMABAD: The National Command and Control Operations Centre (NCOC) has celebrated two years of achievement against COVID-19. The center has played a crucial role in the country's response to the pandemic, and it has been instrumental in coordinating the efforts of various government agencies and departments. NCOC has successfully managed the distribution of vaccines, the implementation of lockdown measures, and the provision of medical supplies. The center has also been instrumental in the development of a national strategy for the control and eradication of the virus. NCOC's achievements have earned it widespread praise and recognition, and it is now being hailed as a model for other countries facing similar challenges. The center is committed to continuing its efforts to protect the health and safety of the Pakistani people, and it is confident that it will continue to play a vital role in the country's response to future crises.

Four terrorists killed in North Waziristan

ISPR

ISLAMABAD: Four terrorists have been killed in a military operation in North Waziristan. The operation was conducted by the Pakistani military, and it resulted in the death of four terrorists and the capture of several others. The military officials said that the terrorists were part of a group that was active in the region, and they were planning to carry out a series of attacks. The military was alerted to the group's activities, and it launched a surprise attack on their hideout. The operation was successful, and the terrorists were killed before they could carry out their plans. The military is now working to identify and neutralize the remaining members of the group, and it is also taking steps to strengthen its presence in the region. The operation is a significant victory for the Pakistani military, and it demonstrates its ability to conduct successful counterterrorism operations in difficult terrain.

Pakistan's House of Blood among teams secure Free Fire World Series final berth

Staff Reporter

ISLAMABAD: Pakistan's House of Blood team has secured a berth in the final of the Free Fire World Series. The team, which is led by captain Shahzad, has performed exceptionally well throughout the tournament, and they are now set to face the top team in the world in the final match. The House of Blood team has a strong record, having won several matches and scored a high number of kills. They are now looking to bring home the trophy and represent Pakistan on the international stage. The final match is expected to be a highly competitive one, and it will be a true test of the team's skills and teamwork. The Pakistani fans are excited to see their favorite team in the final, and they are hoping for a victory that will bring pride and glory to the country.

The members of the House of Blood team posing with their trophies after winning the Free Fire World Series final.

Pub Nifty participants in Doha Int'l Maritime Defence expo

Staff Reporter

ISLAMABAD: Pakistan Navy officials participated in the Doha International Maritime Defence Expo. The expo is a major event in the region, and it provides an opportunity for Pakistani officials to meet with their counterparts from other countries and discuss maritime security issues. The Pakistani officials attended several sessions and workshops, and they also participated in a number of networking events. They were impressed by the advanced technologies and equipment on display, and they also learned a great deal about the latest trends in maritime defence. The expo is a valuable platform for the Pakistani Navy to showcase its capabilities and to build relationships with other maritime powers. The officials are confident that the expo will lead to a number of fruitful collaborations and partnerships in the future.

Govt completes 29 reforms under ADB, Progress

Staff Reporter

ISLAMABAD: The Government of Pakistan has completed 29 reforms under the ADB program. The reforms cover a wide range of areas, including infrastructure, education, and health services. The government is confident that the reforms will lead to significant improvements in the country's economic and social indicators. The ADB program is a key part of the government's development strategy, and it has provided a significant amount of financial support for the reforms. The government is committed to continuing to work with the ADB to implement the remaining reforms and to achieve the program's goals. The reforms are a testament to the government's commitment to reform and to its determination to improve the lives of the Pakistani people.

The reforms include the construction of new roads, bridges, and schools, as well as the implementation of various social welfare programs. The government has also taken steps to improve the efficiency of its public services and to reduce corruption. The reforms are a significant achievement for the government, and they demonstrate its commitment to reform and to its determination to improve the lives of the Pakistani people. Initiative Launched To Help Pak Expats Find Better Reintegration

On Mar 29, 2022

Lahore – In order to offer assistance to Pakistani returnees as well as locals in exploring quick and effective start-up opportunities, especially in Punjab, the TVET Sector Support Programme (TVET SSP) has joined hands with the Punjab Vocational Training Council (PVTC) as it would help them settle back home with better economic opportunities.

The TVET SSP is facilitating the reintegration of returnees under its new component 'Reintegration of Returnees in Pakistan' which is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ).

The agreement was signed by PVTC Chairperson Maj (Retd) Shahnawaz Badar and Head of TVET SSP Ms Iris Cordelia Rotzoll. Representatives of several stakeholders from the development sector, including PSDA, the Women Chamber of Commerce and Industry, the Punjab Skills Development Fund and Worldwide Fund for Nature Pakistan attended the agreement signing.

The 'Reintegration of Returnees in Pakistan' of TVET SSP has the target to support 15,000 individuals, including 6,500 returnees from Germany and Gulf countries through various support measures particularly career and entrepreneurship advisory services, competency-based training & assessments (CBT&A), recognition of prior learning, and employment promotion. The partnership agreement will particularly offer reintegration assistance to 700 returnees and locals through CBT&A and recognition of prior learning. In addition, 275 beneficiaries will receive toolkits in their respective trades enabling them to earn their livelihood through sustainable means.
