Curriculum specification for Hospitality Sous Chef

1. Introduction

The structure of this course

This curriculum comprises 10 modules. The recommended delivery time is 800 hours. Delivery of the course could therefore be full time, 5 days a week, for 6 months. Training providers are at liberty to develop other models of delivery, including part-time and evening delivery. The full structure of the course is as follow:

Module	Theory ¹ Days/hours	Workplace ² Days/hours	Total hours
Module 1: Monitoring the duties and activities of the kitchen team	20	80	100
Module 2: Co-ordinate the operation of the food preparation and cooking area	18	72	90
Module 3: Monitoring supplies for kitchen operations	12	48	60
Module 4: Monitoring the quality of food production	20	80	100
Module 5: Supervise the delivery of effective kitchen service to food service team	18	72	90
Module 6: Manage comments and complaints relating to food production	6	24	30

¹ Learning Module hours in training provider premises

² Training workshop, laboratory and on-the-job workplace

Module 7: Monitoring health and safety issues in food production areas	35	55	90
Module 8: Monitoring and controlling kitchen costs and waste	35	25	60
Module 9: Monitoring delivery of food production into service areas	16	64	80
Module 10: Support the professional development of the kitchen team	20	80	100

Training providers need to understand that this curriculum for Hospitality Sous Chef cannot be delivered in isolation, because of the level of supervisory responsibilities within the role. Training providers must therefore ensure that they also offer the Hospitality Cook and/or Chef de Partie curriculum, with relevant opportunities for development of practical cook and/or chef skills. This will provide the context in which Sous Chefs can develop their own supervisory skills.

In this respect, training providers will also need professional training to ensure that they have the full range of tools, equipment and consumable supplies required for the Cook/Chef de Partie curriculum. These are detailed in Sections 8 and 9 of this document.

The purpose of the Hospitality Sous Chef course is to engage people with a programme of development that will provide them with the knowledge, skills and understanding to start this career in Pakistan. The course has been developed to address specific issues, such as the national, regional and local cultures, the manpower availability within the country, and meeting and exceeding the needs and expectations of their guests.

Central aim of the training provider, trainer or teacher

The aim for the team of staff responsible for delivery of the Hospitality Sous Chef curriculum is to develop work related skills through comprehensive action orientation. Action orientation can be understood as the willingness and ability of a student to act in professional, social and private situations appropriate, thoughtfully and in a socially responsible manner.

Teaching staff will support students in developing their willingness and ability, through their technical knowledge and abilities, to solve tasks and problems that are goal-oriented. They will need to use student-centred, practically oriented methods. They will also need to develop a programme of practical assessment that reflects the learning outcomes stated in the curriculum.

Students of the Hospitality Sous Chef curriculum will also develop their willingness and ability as an individual to clarify issues, think through and to assess development opportunities. They will learn to consider requirements and constraints in family, professional and private life and to develop their own talents and future life plans.

Teaching staff will also support students in developing characteristics such as self-reliance, reliability, responsibility, a sense of duty and the willingness and ability to criticize and to accept criticism well and to adapt their future behaviour accordingly.

Teaching also needs to use the Hospitality Sous Chef curriculum to address development of social competence. Students need to acquire a willingness and ability to live and shape their own social relationships, to capture and understand contributions and tensions in their lives, as well as finding ways to deal with others in a rational and responsible manner. This in particular includes especially the development of social responsibility and solidarity.

Method competency, communicative competence and learning competence are inherent part of developing expertise, self-competence and social competence in students through the Hospitality Sous Chef curriculum. Method competence develops in students a willingness and ability to use a targeted, tactical approach during the handling of tasks and problems (for example, in the planning of steps). Communication competence develops a willingness and ability to understand and to shape communicative situations, including the ability for students to perceive, understand and to represent their own intentions and needs as well as those of their partners. Learning competence develops in students a willingness and ability to understand and evaluate – independently and together with others – information about facts and contexts through the Hospitality Sous Chef curriculum and to classify these in mental structures. As part of learning competencies, students will demonstrate the ability and willingness to develop in his or her professional or private life learning techniques and learning strategies and to use them for lifelong learning.

Entry level for trainees

Trained and qualified as a Chef de Partie for at least 3 years, with 3 years" experience in a commercial hospitality kitchen (eg hotel, restaurant, club, industrial canteen)

OR

FA plus 5 years" experience as Chef de Partie in a commercial hospitality kitchen (eg hotel, restaurant, club, industrial canteen) and completion of appropriate admission assessment.

Trainees must also be competent at Level 3 in English and numeracy.

ALL ENTRANTS SHOULD HOLD A CURRENT MEDICAL CERTIFICATE

Minimum teaching qualification

Teaching staff should have at least five years' experience in the role of Executive chef. They should also hold or be working towards a formal teaching qualification.

Other formal qualifications in the hospitality industry would be useful in addition to the above. Trainers must be competent at Level 3 in English and numeracy.

Medium of instruction

Instruction will be Urdu and English. For employment in the Middle East, some Arabic expressions will be helpful. It will also be helpful to develop knowledge of French terminology for the hospitality industry.

Terminology

This curriculum is for a Hospitality Sous Chef. Some organisations may use alternative terms to describe this job role. Training providers should examine the Overview of the Curriculum to determine whether this curriculum meets the needs of potential students.

This curriculum specification uses the term Executive Chef to indicate the Sous Chef's line manager. Organisations are likely to use a range of different terms and this should be interpreted flexibly.

Laws and regulations

Training providers must ensure they keep up to date with laws, standards and regulations – at both national and regional levels – relating to health and safety, food safety, guest rights and other relevant issues. These currently include:

- The Pure Food Ordinance 1960
- Pakistan Hotels and Restaurant Act 1976
- Pakistan Standards and Quality Control Authority Act 1996
- Factories Act 1934
- Punjab Factories Rules 1978
- Sindh Factories Rules 1975
- North-West Frontier Province Factories Rules 1975
- West Pakistan Hazardous Occupations Rules 1963
- Provincial Employees Social Security (Occupational Diseases) Regulation 1967
- Workmen Compensation Act 1923 and Rules 1961

The team of staff responsible for delivery of the Hospitality Sous Chef curriculum must familiarise themselves with laws and regulations that relate to their area of teaching and ensure that learners know and understand how to comply with and meet their responsibilities. Learning units will refer to the above list where appropriate.

Suggested distribution of modules

This qualification is made up of 10 modules. A suggested distribution of these modules is presented overleaf. This is not prescriptive and training providers may modify this if they wish.

Each module covers a range of learning components. These are intended to provide detailed guidance to teachers (for example the Learning Elements component) and give them additional support for preparing their lessons (for example the Materials Required component). The detail provided by each module will contribute to a standardised approach to teaching, ensuring that training providers in different parts of the country have clear information on what should be taught. Each module also incorporates the cultural background of Pakistan, including specialist features and dishes that make this qualification unique to Pakistan's needs.

The distribution table is shown overleaf:

Module 1: Monitoring the duties and activities of the kitchen team 100 hours	Module 3: Monitoring supplies for kitchen operations 60 hours
Module 2: Co-ordinate the operation of the food preparation and cooking area 90 hours	Module 4: Monitoring the quality of food production 100 hours
Module 5: Supervise the delivery of effective kitchen service to food service team 90 hours	Module 6: Manage comments and complaints relating to food production 30 hours
Module 7: Monitoring health and safety issues in food production areas 90 hours	Module 10: Support the professional development of the kitchen team 100 hours
Module 8: Monitoring and controlling kitchen costs and waste 60 hours	
Module 9: Monitoring delivery of food production into service areas 80 hours	

2. Competency Standard – “SOUS CHEF”

Definition

Sous Chefs have overarching responsibility for a kitchen, often with several sections. While specific duties vary depending on the type of establishment, the duties of Sous Chefs will include managing staff, planning menus, managing costs, ordering stock, planning staff rotas and training, managing standards and compliance with regulations.

Overall objectives of this course

- Running a kitchen in line with organisational requirements
- Implementing food safety, health and safety, security and other practices to meet relevant regulations and ensure the safety of guests and associates
- Managing teams of kitchen staff
- Liaising with food and beverage service teams and other departments
- Costing, ordering stock and storing food and other items
- Making sure that food prepared and cooked by the kitchen team is of the highest quality

Competencies gained after completion of the course:

At the end of the course, the student must have attained the following competencies:

- Lead a kitchen team
- Develop and implement nutritional, economic and ecological requirements
- Co-ordinate the operation of the food preparation and cooking area
- Monitoring the duties and activities of the kitchen team
- Monitoring supplies for kitchen operations
- Monitoring the quality of food production
- Supervise the delivery of effective kitchen service to food service team

- Manage comments and complaints relating to food production
- Monitoring health and safety issues in food production areas
- Monitoring and controlling kitchen costs and waste
- Monitoring delivery of food production into service areas
- Support the professional development of the kitchen team

Personal requirements

Sous Chefs need the following characteristics:

- A genuine interest in preparing and cooking food
- A keen sense of taste and smell
- Good health and stamina – able to stand for long duty hours in kitchen environment
- Able to lead and work as a member of a team
- Willing to maintain the high standard of cleanliness necessary in any food establishment
- Capacity to be creative
- Organizational and managerial skills
- Flexibility
- Teamwork and leadership
- Guest focused
- Desire to learn

Opportunities for employment and advancement

Sous Chefs are employed in hotels, clubs, restaurants, catering firms, marriage halls, caterers, institutions, homes and specialty food outlets. Experienced Sous Chefs may advance through promotions with the same employer or by moving to more advanced positions with other employers. They can become:

- Executive Chefs
- Banquet Managers
- Food and Beverage Managers

- Hotel Managers
- General Managers.

Some experienced Sous Chefs achieve a significant level of salaries. There are good prospects for travel both within Pakistan and abroad. The employment outlook in this occupation will be influenced by a wide variety of factors including:

- Trends and events affecting overall employment (especially in the Accommodation and Food Services industry)
- Location in Pakistan
- Employment turnover (work opportunities generated by people leaving existing positions)
- Occupational growth (work opportunities resulting from the creation of new positions that never existed before)
- Size of the industry
- Flexibility of the applicant (concerning location and schedule of work).

4. Teaching and Learning Guide for Hospitality Sous Chef

The aim of the training is for students to be able to act independently and responsibly in their field of study, by following an educational programme where this is part of the overall methodological concept.

Different methodologies can therefore contribute to achieving this objective. Theory methodologies should be supported by appropriate resources, as indicated in the „Materials Required“ column of the Learning Unit specifications. Teachers should also illustrate theory sessions with examples of how the learning could be applied in the workplace. Practical methodologies should be set in an appropriate environment and supported by appropriate resources, also indicated in the „Materials Required“ column of the Learning Unit specifications. Methods that directly promote capacity-building for the student are particularly suitable and therefore should be included appropriately in the teaching approach.

4.1. Module 1: Monitoring the duties and activities of a team

Objective of the module: The aim of this module is to develop knowledge, skills and understanding of monitoring the duties and activities of a team

Duration 100 hours **Theory:** 20 hours **Practical:** 80 hours

5. General assessment guidance for the Hospitality Sous Chef Curriculum

Good practice in Pakistan makes use of sessional and final assessments, the basis of which is described below. Good practice by vocational training providers in Pakistan is to use a combination of these sessional and final assessments, combined to produce the final qualification result.

Sessional assessment is going on all the time. Its purpose is to provide feedback on what students are learning:

- to the student: to identify achievement and areas for further work
- to the teacher: to evaluate the effectiveness of teaching to date, and to focus future plans.

Assessors need to devise sessional assessments for both theoretical and practical work. Guidance is provided in the assessment strategy

Final assessment is the assessment, usually on completion of a course or module, which says whether or not the student has "passed". It is – or should be – undertaken with reference to all the objectives or outcomes of the course, and is usually fairly formal. Considerations of security – ensuring that the student who gets the credit is the person who did the work – assume considerable importance in final assessment.

Methods of assessment

For lessons with a high quantity of theory, written or oral tests related to learning outcomes and/ or learning content can be conducted. For workplace lessons, assessment can focus on the quality of planning the related process, the quality of executing the process, the quality of the product and/or evaluation of the process.

Methods include direct assessment, which is the most desirable form of assessment. For this method, evidence is obtained by direct observation of the student's performance.

Examples for direct assessment of a sous chef include:

- Work performances, for example maintaining a log of food production, or checking the work of a section to ensure it meets time requirements
- Demonstrations, for example demonstrating how first aid or fire fighting equipment should be used
- Direct questioning, where the assessor would ask the student how he would check the quality and quantity of food delivered to the kitchen, or how he would respond to a complaint relating to food production
- Paper-based tests, such as multiple choice or short answer questions on the efficient and effective use of equipment, or ways to gather feedback on food production.

Indirect assessment is the method used where the performance could not be watched and evidence is gained indirectly.

Examples for indirect assessment of a sous chef include:

- Work products, such as a training plan to support the professional development of the food and beverages service team
- Workplace documents, such as a copy of the analysis of a kitchen log to ensure appropriate requisitions are being made

Indirect assessment should only be a second choice. (In some cases, it may not even be guaranteed that the work products were produced by the person being assessed.)

Synoptic assessment

Synoptic assessment provides opportunities for students to combine elements of their learning from different modules and to show their accumulated knowledge and understanding of a topic or subject area. A synoptic assessment normally enables students to show their ability to integrate and apply their skills, knowledge and understanding with breadth and depth in the subject. It can help to test a student's capability of applying the knowledge and understanding gained in one module to increase their understanding in other modules, or across the curriculum as a whole.

Parts of the final theoretical assessment will require the application of synoptic assessment. Further guidance is given in the assessment strategy.

Principles of assessment

All assessments should be valid, reliable, fair and flexible:

Fairness means that there should be no advantages or disadvantages for any assessed person. For example, it should not happen that one student gets prior information about the type of work performance that will be assessed, while another candidate does not get any prior information.

Validity means that a valid assessment assesses what it claims to assess. For example, if sous chef's ability to brief staff on new menu and recipe items is to be assessed and certificated, the assessment should involve performance criteria that are directly related to that briefing activity. An interview about how the recipes or menus were developed would not meet the performance criteria.

Reliability means that the assessment is consistent and reproducible. For example, if the work performance of managing communications between the food and beverage service area and other departments has been assessed, another assessor (eg the future employer) should be able to see the same work performance and witness the same level of achievement.

Flexibility means that the assessor has to be flexible concerning the assessment approach. For example, if there is a power failure during the assessment, the assessor should modify the arrangements to accommodate the students' needs.

Assessment strategy for the Hospitality Sous Chef Curriculum

This curriculum consists of 10 modules:

- Module 1: Monitoring the duties and activities of a team
- Module 2: Co-ordinate the operation of the food preparation and cooking area
- Module 3: Monitoring supplies for kitchen operations
- Module 4: Monitoring quality of food production
- Module 5: Supervise the delivery of effective kitchen service to food service team
- Module 6: Manage comments and complaints relating to food production
- Module 7: Monitoring health and safety issues in food production areas
- Module 8: Monitoring and controlling kitchen costs and waste
- Module 9: Monitoring delivery of food production into service areas
- Module 10: Support the professional development of the kitchen team

Sessional assessment

The sessional assessment for all modules shall be in two parts: **theoretical assessment and practical assessment**. The sessional marks shall contribute to the final qualification.

Theoretical assessment for all learning modules must consist of a written paper lasting **at least one hour** per module. This can be a combination of short answer and extended answer questions.

For **practical** assessment, all procedures and methods for the modules must be assessed on a sessional basis. Guidance is provided below under **Planning for assessment**.

Final assessment

Final assessment shall be in two parts: **theoretical assessment** and **practical assessment**. The final assessment marks shall contribute to the final qualification.

The final **theoretical** assessment shall consist of **one** 3-hour paper. The paper shall be in **two parts**.

Part A shall last for 2 hours and shall consist of half short-answer and half extended-answer questions. This part shall cover all modules.

Part B shall last for 1 hour and shall consist of **four synoptic** assessment questions (see the section on General assessment guidance). These synoptic assessment questions must combine at least two modules. The title of the modules must be stated clearly at the start of each question. An example is provided below:

Question 14: This question is about the quality of supplies and food production. It is based on the following modules:

- **Module 3:** Monitoring supplies for kitchen operations
- **Module 4:** Monitoring quality of food production
- **Module 5:** Supervise the delivery of effective kitchen service to food service team

Your organisation is hosting a wedding celebration today for 250 people. Food orders have been placed a week in advance, in line with your organisation's requirements.

Use examples from this scenario to illustrate **the full range of quality checks** that you should carry out to support successful delivery of food to the point of service.

15 marks are awarded for this question.

Notes for assessors:

Students' answers should cover the following points:

- Check quality of food deliveries and other products into store
- Check quality of food store
- Check the quality of food delivered to the kitchen
- Check that preparation of food meets requirements
- Check that cooking of food meets requirements
- Ensure that the kitchen team deliver effective service to food service team at all times

Marks should be allocated as follows:

0	No rewardable material
1-4	A few key points identified, or one point described in some detail. The answer is likely to be in the form of a list. Only one aspect of quality considered. Points made will be superficial/generic and not applied/directly linked to the situation in the question.
5-10	Some points identified, or a few key points described in detail. Consideration of more than one aspects of quality but more emphasis on one of them. The answer is unbalanced. Most points made will be relevant to the situation in the question, but the link will not

always be clear

11-15

Range of points described in depth. All aspects of quality are considered and the answer is well balanced, considering all points equally. The majority of points made will be relevant and there will be a clear link to the situation in the question.

For the final **practical** assessment, each student shall be assessed over a period of two days, with two 3-hour sessions on each day. This represents a total of four sessions totalling 12 hours of practical assessment for each student. During this period, each student must be assessed using either case study or role-play, depending on his or her circumstances. For example, their work commitments may prevent them from attending one or more role-play sessions. In this case, written case studies may be used instead.

Role-play scenarios must be based on synoptic assessment. These synoptic assessment scenarios must combine at least two modules. The title of the modules must be stated clearly at the start of each question. Each student within the group of five students must be given a different role. Students must be given 30 minutes at the start of the role-play to prepare for their role. The remaining time (2½ hours) must focus on group work and how students manage the whole task. An example is provided below:

Role-play 7: This role-play is about developing new menu ideas and providing training for kitchen teams to support their implementation.

- **Module 2:** Co-ordinate the operation of the food preparation and cooking area
- **Module 7:** Monitoring health and safety issues in food production areas
- **Module 10:** Support the professional development of the kitchen team

Scenario: You are part of a group of 5 sous chefs in a large hotel at the outskirts of the city, close to the airport. The management have requested that your group explore ideas for new recipes that will involve and promote fusion cooking. You should consider the needs of your current market, as well as how the new ideas will appeal to international travellers transiting through the airport.

You do not need to make decisions today about the recipes. The management have asked for a clear plan on how you would set about this project. Each of your group has their own responsibility. It is important that you show how each responsibility will integrate with others as part of the group effort.

Spend 30 minutes preparing for your role. Spend the remaining 2½ hours working as a group to manage the whole task. You should ensure that you summarise your own effort and the group effort, showing how each task integrates with others.

Roles are as follows:

- **Student A:** responsible for managing contributions to the development and introduction of recipes and menus
- **Student B:** responsible for contributing to the identification and implementation of sales development activities and training requirements to support staff development
- **Student C:** responsible for monitoring health and safety and the efficient and effective use of equipment
- **Student D:** responsible for contributing to the management of physical resources
- **Student E:** responsible for managing communications between the food and beverage service area and other departments

The assessment team

The number of assessors must meet the needs of the students and the training provider. For example, where **two assessors** are conducting the assessment, there must be a maximum of **five students per assessor**. In this example, a group of 20 students shall therefore require

assessments to be carried out over a four-day period. For a group of only 10 students, assessments would be carried out over a two-day period only.

Planning for assessment

Sessional assessment: assessors need to plan in advance how they will conduct sessional assessments for each module. The tables on the following pages are for assessors to use to insert how many hours of theoretical and practical assessment will be conducted and what the scheduled dates are.

Final assessment: Training providers need to decide ways to combine modules and role-play/case study scenarios into a cohesive two-day final assessment programme for each group of five students. Training providers must agree the role play/case study arrangements in advance and ensure that assessors are properly briefed. This should include a meeting with the assessors to discuss the role play/case study scenarios and agree a standardised methodology for awarding marks.

Planning aid for sessional assessments

Module 1: Monitoring duties and activities of kitchen team			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Observe and check that professional kitchen standards are maintained throughout preparation and cooking of food and completion of shift			
LU2: Check that kitchen staff are present and manage absence issues for food production areas			
LU3: Support the Executive Chef			
LU4: Supervise Chefs de Partie and other associates			

Module 2: Co-ordinate the operation of the food preparation and cooking area			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Check what bookings and functions are made for food service areas			
LU2: Maintain kitchen log of food production on a daily basis			
LU3: Manage communications between the food and beverage service area and other departments			
LU4: Establish and maintain the condition of kitchen work areas and equipment			
LU5: Contribute to the management of physical kitchen resources			
LU6: Contribute to the development and introduction of recipes and menus			

Module 3: Monitoring supplies for kitchen operations			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Check quality and quantity of food deliveries and other products into store			
LU2: Prepare food order requisitions to meet requirements of food production			

Module 4: Monitoring quality of food production			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU1: Check that preparation of food meets requirements			
LU2: Check that cooking of food meets requirements			

LU3: Check that clear down is carried out efficiently			
---	--	--	--

Module 5: Supervise the delivery of effective kitchen service to food service team			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Develop and maintain positive working relationships between kitchen and food service teams			
LU2: Ensure that the kitchen team deliver effective service to food service team at all times			
LU3: Solve problems for food service team			
LU4: Improve service reliability for food service team			
LU5: Gather information on feedback of kitchen service and opportunities for improvement			

Module 6: Manage comments and complaints relating to food production			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU1: Manage comments relating to food production			
LU2: Manage complaints relating to food production			

Module 7: Monitoring health and safety issues in food production areas			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Ensure that all kitchen associates follow organizational requirements for health and safety			
LU2: Monitor efficient and effective use of kitchen equipment			

LU3: Maintain and monitor the kitchen cleaning programme			
--	--	--	--

Module 8: Monitoring and controlling kitchen costs and waste

Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Check that food items are stored at the correct temperature			
LU2: Check that kitchen sections are working to requirements and not overproducing			
LU3: Check that all sections are minimizing kitchen waste effectively			
LU4: Ensure that kitchen waste products are disposed of following correct procedures			

Module 9: Monitoring delivery of food production into service areas			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Check that food has been presented as intended			
LU2: Check quantities of food are as required and intended			
LU3: Check that food is served at correct temperature			

Module 10: Support the professional development of the kitchen team			
Learning Units	Recommended sessional assessment	Recommended final assessment	Scheduled Dates
LU 1: Contribute to the development of kitchen teams and individuals			

LU2: Contribute to the provision of required kitchen associates			
---	--	--	--

LU3: Lead the work of kitchen teams and individuals to achieve objectives			
LU4: Manage own self in a kitchen environment			
LU5: Contribute to the identification and implementation of sales development activities for food and beverages service			
LU6: Prepare, deliver and evaluate training sessions for kitchen associates and teams			

6. Tools for the Sous Chef Curriculum

Policy documents

1 class copy	Examples of organisation"s aims and objectives statement for different organisations
1 class copy	Examples of organisational policy and procedures for disposing of waste for different organisations
1 class copy	Examples of recruitment policy for different organisations
1 class copy	Examples of health, safety and environment policy for different organisations
1 class copy	Examples of organisation"s service policy for supporting the food service team for different organisations
1 class copy	Examples of organisation"s guest service policy for different organisations
1 class copy	Examples of specific policy or guidance on handling complaints for different organisations

Manuals and guidelines

1 class copy	Examples of Standard operating procedures for the kitchen for different organisations
20 copies	Examples of kitchen equipment and operating instructions for different organisations
1 class copy	HACCP standards
20 copies	Examples of inspection list of food production areas for different organisations
20 copies	Examples of employee job descriptions for different organisations

20 copies	Employee assessment checklist
1 class copy	Examples of training manual for associates for different organisations
1 class copy	Examples of recipe development process for different organisations
1 class copy	Examples of new menu preparation process for different organisations
1 class copy	Examples of menu preparation guidelines checklist for different organisations
20 copies	Examples of requisition guidelines for new items, including equipment, food, ingredients, stewarding, chemicals for different organisations
1 class copy	Different catalogues listing tools and equipment for disposing of waste
20 copies	Checklist for wet and dry waste room inspection
20 copies	Analysis tools and recording forms
20 copies	Report templates
1 class copy	Examples of purchase specifications for food and other products for different organisations
1 class copy	Examples of storage guidelines for different organisations
1 class copy	Examples of portion and weight control guidelines for different organisations
20 copies	Raw material quality control checklist
20 copies	Procedures for cleaning and sanitising areas
1 class copy	Examples of menus, drinks lists, function planners, other promotional materials for different organisations

1 class copy	Examples of aims and objectives statement for different organisations
1 class copy	Standards for waste management

Report

1 class copy	Examples of cost reports for different organisations
1 class copy	Examples of weekly consumption reports for different organisations
1 class copy	Examples of process for costing of resources for different organisations
20 copies	Annual leave plans
20 copies	Daily assignment schedule for associates
1 class copy	Examples of daily consumption guideline
1 class copy	Examples of preventive maintenance program for different organisations
1 class copy	Examples of procedures for carrying out the cleaning programme for different organisations
1 class copy	Examples of instruction manuals for specialist cleaning equipment for different organisations
1 class copy	Examples of guest services resources, handouts, articles, journals for reading for different organisations
1 class copy	Examples of maintenance schedules for kitchen equipment for different organisations
20 copies	Reporting templates (various types)
20 copies	Guest feedback forms, questionnaire formats, other examples of data-gathering instruments

Records

1 completed class copy as example 20 blank copies	Log book
1 completed class copy as example 20 blank copies	Logbooks for recording accidents and incidents
1 completed class copy as example 20 blank copies	Food store capacity chart
1 completed class copy as example 20 blank copies	Daily material consumption report
1 completed class copy as example 20 blank copies	Record of allocated duties and tasks
1 completed class copy as example 20 blank copies	Duty rota
1 completed class copy as example 20 blank copies	Log for recording absences
1 completed class copy as example 20 blank copies	Checklists for monitoring the cleaning programme, weekly, fortnightly, monthly, quarterly and annual cleaning scheduled
1 completed class copy as example 20 blank copies	Daily event sheets
1 completed class copy as example	Daily activity plan

20 blank copies	
1 completed class copy as example 20 blank copies	Future bookings diary or record
1 completed class copy as example 20 blank copies	Requisitions forms
1 completed class copy as example	Staffing rotas for different sections
1 completed class copy as example 20 blank copies	Store recording documentation
1 completed class copy as example 20 blank copies	Inspection check list for food store
1 completed class copy as example 20 blank copies	Inventory management system
1 completed class copy as example 20 blank copies	Guest order checks

General

1 Notice board

1 Telephone

2 Computer, software, accessories

2 sets Analysis tools and recording forms

5 sets Temperature checking equipment (probes, monitors, sensors)

1 set Guest services resources, handouts, articles, journals for reading
1 set Tools and equipment for disposing of waste
1 set Safety equipment
1 set Emergency notices and signs
1 set Fire equipment
1 set First aid equipment

7. List of Utensils and equipment

As noted in the Introduction to this document, this curriculum for Hospitality Sous Chef cannot be delivered in isolation. Training providers will also need to ensure that they have the full range of tools, equipment and consumable supplies required for the Cook/Chef de Partie curriculum. These are detailed in the following two sections.

Preparation equipment

20 sets of knives (different types), peeling knives, carving knives, chef knives, etc
3 graters
5 measuring scale
2 refrigerators (maintain temperature from 3 to 5 degrees)
2 freezers (maintain temperature from -18 to -20 degrees)
12 (3 each), cutting boards (different colours), white for ready to eat and salads, blue for seafood, red for meat, yellow for poultry

Utensils including

15 (5 each), pans (large, small, medium)
15 (5 each), bowls
5 sets measuring spoons
10 forks
1 bread slicer
2 (1 each), mixers (large, small)

2 blenders
2 toasters
5 tin openers
5 peelers
1 potato cutter
3 choppers
1 mincing machine 1
bone saw cutters 1
patties maker
2 beaters
2 mashers
20 baking trays

Cooking equipment

8 burners/stoves
1 each ovens (convection oven, deck oven) 1
microwaves oven
1 grill
1 tilting pan
1 steamer
1 salamander
1 Panini machine
1 blender heavy duty 20
bread pans
20 bun pans
20 baguette pans
2 juicers
1 juice extractor
1 deep fryer

Presentation equipment

20 plates

20 platters

20 silver salvers
20 serving dishes
20 sauceboats
Details of requirements, including food check from food outlet

Other equipment and materials

Equipment and materials for washing hands 1
example copy of HACCP standards
