RCCL voices concern over hike in POL prices and inflation

Press Release

RAWALPINDI: The Rawalpindi Chamber of Commerce and Industry (RCCL) has expressed deep concern over the rise in petroleum products and demand for immediate review of prices. Petrol is priced at Rs 127 and diesel at Rs 122 and kerosene at around Rs 100 Per liter.

Nadeem Rauf, the newly elected President said in a statement that "constantly rising inflation posed a serious threat to the economy as the consumer prices, influenced by faster pace depreciation and rise in energy prices, have increased to their highest level. Due to increase in prices of Petroleum the prices of food and basic necessities have increased manifold over the past few months. Rise in prices of milk, vegetables, fruits, pulses, wheat and flour, sugar have affected the purchasing power of common mass, he further added.

Pakistan's manufacturing sector is already facing the challenge of cost competitiveness and given the rise in technical prices, it will likely impact the export basket, he said. He said that high speed growth would have a negative impact on the import sectors and therefore an increase in its price would have a direct impact on the common mass due to inflationary impact. He said the petroleum price hike would increase the monthly bill of the common man. He said it would also have a negative effect on the industry and would impact prices of different products skyrocketing. RCCL President requested that the new wave of inflation would strip the entire nation with leading to a sharp rise in the cost of living. He said that the government should take immediate steps to curb the inflation, adding that the government should also take steps to ensure that the inflation would be unaffordable to any of the traders, said Nadeem Rauf. He demanded that the government should hold in Petro prices in the larger interest of trade, industry and economy.
