

INTRODUCTION

The TVET Sector Support Programme promotes an active partnership between technical education and vocational training (TVET) institutes and private sector for imparting industry demand-driven training. The workplace-based training approach provides trained human resource to the employers according to their need, thus, increasing the chances of employments of graduates. The involved enterprises and business industry associations are engaged in selecting relevant qualifications, planning and delivering training, and conducting assessments within the national qualification framework of Pakistan.

The Programme provides technical support to training institutes and enterprises to link theoretical with practical training at the workplace. In this regard, both sides can agree on flexible approaches in training delivery, which meet the demands of the involved enterprises.

Balochistan Rural Development Society

Skill Enhancement and Employment Development (SEED)

OBJECTIVES

The project SEED (Skill Enhancement and Employment Development) was designed to provide demand-driven skills training to 200 trainees (80 women and 120 men) in Sibi district of Balochistan. The project ensured coordination with at least 5 enterprises per qualification for employment of at least 75% of the trainees employed on sustainable basis. The project also encouraged the replication of the workplace-based training through sharing of best practices and learnt lessons.
