# Workplace-based Trainings through Competency-based Trainings and Assessments Model in Balochistan

### OBJECTIVES

This project is implemented to empower community through the provision of six-months technical and vocational competency-based training skills, so that trainee can contribute for the financial needs of their family and become productive member of society. The project involve BIAs and enterprises to ensure 75% employment and impart training to 240 trainees (140 men and 100 women) in demand-driven national vocational qualifications.

### INTRODUCTION

The TVET Sector Support Programme promotes an active partnership between technical education and vocational training (TVET) institutes and private sector for imparting industry demand-driven training. The workplace-based training approach provides trained human resource to the employers according to their need, thus, increasing the chances of employments of graduates. The involved enterprises and business industry associations are engaged in selecting relevant qualifications, planning and delivering training, and conducting assessments within the national qualification framework of Pakistan.

The Programme provides technical support to training institutes and enterprises to link theoretical with practical training at the workplace. In this regard, both sides can agree on flexible approaches in training delivery, which meet the demands of the involved enterprises.
