INTRODUCTION

The TVET Sector Support Programme promotes an active partnership between technical education and vocational training (TVET) institutes and private sector for imparting industry demand-driven training. The workplace-based training approach provides trained human resource to the employers according to their need, thus, increasing the chances of employments of graduates. The involved enterprises and business industry associations are engaged in selecting relevant qualifications, planning and delivering training, and conducting assessments within the national qualification framework of Pakistan.

The Programme provides technical support to training institutes and enterprises to link theoretical with practical training at the workplace. In this regard, both sides can agree on flexible approaches in training delivery, which meet the demands of the involved enterprises.

OBJECTIVES

Skill Development of Youth in Quetta is a project supported by TVET Sector Support Programme, funded by European Union and the governments of the Germany and Norway to train 110 individuals by the end of 2019. The project promoted skills learning for the employment and entrepreneurial opportunities for young men and women of Balochistan. The project facilitated trainees with sound knowledge, wisdom, experience and on-the-job training opportunities in the occupations of HV AC, Electrical Equipment Installation & Repair and Auto Mechanic.
