Technical Training Centre for Boys, Quetta Support to Technical and Vocational Education and Training Sector in Pakistan

INTRODUCTION

The TVET Sector Support Programme promotes an active partnership between technical education and vocational training (TVET) institutes and private sector for imparting industry demand-driven training. The workplace-based training approach provides trained human resource to the employers according to their need, thus, increasing the chances of employments of graduates. The involved enterprises and business industry associations are engaged in selecting relevant qualifications, planning and delivering training, and conducting assessments within the national qualification framework of Pakistan.

The Programme provides technical support to training institutes and enterprises to link theoretical with practical training at the workplace. In this regard, both sides can agree on flexible approaches in training delivery, which meet the demands of the involved enterprises.

OBJECTIVES

Competency Based Training project trained around 60 trainees in occupations of Computer Operator, HVAC and Auto Electrician through CVT approach according to the requirement of enterprises. Through this intervention, trainees were made ready to work in the respective fields at certain skill level for employment prospects. The project concluded at the end of 2018.
