PIFFA Training Institute Logistics & Supply Chain Assistant / Freight Forwarding & Shipping Associate Training

INTRODUCTION

The TVET Sector Support Programme promotes an active partnership between technical education and vocational training (TVET) institutes and private sector for imparting industry demand-driven training. The workplace-based training approach provides trained human resource to the employers according to their need, thus, increasing the chances of employments of graduates. The involved enterprises and business industry associations are engaged in selecting relevant qualifications, planning and delivering training, and conducting assessments within the national qualification framework of Pakistan.

The Programme provides technical support to training institutes and enterprises to link theoretical with practical training at the workplace. In this regard, both sides can agree on flexible approaches in training delivery, which meet the demands of the involved enterprises.

OBJECTIVES

While delivering demand-driven skills training to 150 trainees (20 women and 130 men) in collaboration with the Pakistan International Freight Forwarding Association (PIFFA) and its member organizations, the project strengthened the engagement of private sector organizations for better engagement of enterprises so that in training design, coordination and delivery private sector's participation is enhanced.
